Self Esteem

Think about ...

Self Esteem

We all have a mental picture of who we are, how we look, what we're good at, and what our weaknesses might be. This mental picture contributes to our self esteem and how we feel about ourselves. How we feel can control how we live our lives.

Having positive self-esteem allows you to accept yourself and live life to the full. It plays

an important role in almost everything you do. You are more likely to ask for help and support from friends

and family when you need it. You also believe you can solve problems and achieve your ambitions.

REMEMBER

"Self-esteem" is not fixed for life.
You can improve it!

We all experience problems with self-esteem at certain times in our lives - especially during our teens when we're figuring out who we are and where we fit in.

People who don't see themselves as having the qualities they admire may develop low self-esteem. But people who have low self-esteem often do have the

qualities they admire. They just can't see it!

If you need help with improving your self esteem speak to a relative you trust or your school counsellor.

Here are some Sources of Support

Helplines:

Childline 0800 1111

Samaritans 0845 790 9090

Lifeline 0808 808 8000
