

Violent / Non Violent approach to Civil Rights

Dear,

Introduction statement

A short introduction explaining whether you agree with the violent / non-violent approach to the Civil Rights Movement and why you think it is the best attitude to take towards ending segregation.

Paragraphs 2-4

- Using the evidence cards of the various statements explain why you agree with the arguments of either MLK or Malcom X
- Can you argue why these points of argument are important and why you agree with either of the two individuals and why others in America would agree with them?
- Can you argue the weaknesses of the other argument and while they may help end racial segregation, that they are not the best choice and why you think it may not be successful?
- Can you use any evidence of further research online about the reasons why MLK & Malcom X adopted a non-violent and violent approach respectively?

Closing statement

What do you think will be the outcome for African Americans as a result to support either the violent / non-violent approach and what is your strongest argument?
